DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a particle accelerator having, inter alia, a waveguide having a wall at least partially physically interposed between said first accelerating section and said second accelerating section; a 3 dB waveguide hybrid junction formed at least partially from said wall, said 3 dB waveguide hybrid junction defining a coupling window in said wall (claim 1) or a tube being formed within said wall (claim 2); or a first waveguide and a second waveguide sharing a common wall therebetween and a tube being defined within said shared common wall (claim 5); or a 3 dB waveguide hybrid junction having a first waveguide and a second waveguide sharing a common wall therebetween, said wall defining a coupling window therein (claim 6). The remaining claims 3, 4, 7 and 8 are allowed by virtue of their dependencies from the independent claims. Hence, the examiner has allowed claims 1 through 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
